About Green Melamine

Green Melamine is a leading Korean manufacturer of melamine tableware, proudly established in 1998. We specialize in crafting high-quality tableware for both domestic and international markets. Based in Busan, we welcome your questions and suggestions, and look forward to connecting with you!

Achievements

With a wealth of experience and expertise in creating high-quality melamine tableware, we proudly operate the largest melamine manufacturing facility in the Republic of Korea. Our esteemed reputation in the international market reflects our commitment to excellence. Through our dedication and accomplishments, we inspire trust and pride among our valued customers and partners.

Product Features

We are dedicated to meeting the diverse needs of our customers with products designed for durability and long-lasting use.

Our collection includes a wide range of melamine tableware—plates, bowls, and cups—available in a variety of stunning designs and colors.

Each piece is expertly manufactured from durable, eco-friendly materials, ensuring we provide quality that aligns with our customers' values and lifestyles.

Matte series : Black, Cream, Camellia

Inspired by the vibrant net pattern of fresh seafood, this collection captures the essence of Busan, a bustling port city.

The luxurious matte finish, with a delicate sheen, adds practical elegance to each piece.

The design features embossed curves and straight lines that evoke the organic form of a bulging net, setting it apart from the uniformity of typical grid patterns.

With mesh sizes that adapt to the bowl's shape, this intentional irregularity in both size and style creates a unique and captivating aesthetic.
